"PANKORITE."

MYERS' EXTRACT OF ROCK ROSE.

An Invaluable Remedy for all Scrofula diseases, Indigestion, Salt Rheum, Sick Headache, Canker, Nursing Sore Mouth, and General Debility, and as a PURIFIER OF THE BLOOD, IS UNEQUALLED.
The Rock Rose has gained a reputation, at home and abroad, which no other medicine has ever attained. In the hands of the most skillful Physicians, the Rock Rose Plant is Unequaled in Curing SCROFULA IN ITS VARIOUS FORMS.
BUT WHAT IS THE ROCK ROSE?
The full history of the Rock Rose plant and its medicinal properties, we take from the New Haven Palladium, March, 1852.
"The increased interest manifested in the Rock Rose plant, in consequence of the many wonderful cures effected by 'Myers' Compound Extract of Rock Rose,' calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained concerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial."
We are indebted to the United States Dispensary of 1847, for the following description of it:
It is entirely different from the common Rose. It is a red stemmed, oblong leaf plant, having a bitter taste. In addition to its remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.
DR. EATON
Says that in the months of November and December, he has seen hundreds of three plants growing out near their roots, broad, branching, ice-crystals, about an inch in breadth, which melted during the day, and were renewed in the morning. For a more minute and analytical description of it, the reader is referred to 'Tory & Gray's botanical works.'
The Medical History and Properties of the Rock Rose are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799 it was so valuable in England, that it was cultivated from seeds. Ever since 1806.
PROF. IVES, OF YALE COLLEGE.
Has habitually used it with great success in Scrofula and Chronic Diseases, and through his virtues were made known, until, as Dr. Taylor says, "it is now in this section [New Haven] a common article in domestic practice for the cure of Scrofula and cutaneous diseases."
DR. WHITLAW.
A Scotch Botanist of notoriety, while traveling in America, in 1814, learned its use in Canada. Returning to England, he employed it in medical cases, which became greatly celebrated for the cure of similar diseases.
DR. ISAAC PARISH, OF PHILADELPHIA.
Remarks that it has been successfully used in bad cases of Scrofula Diseases.
Dr. J. H. Thompson, of the same place, Prescribed it in bad cases of Scrofula patients at Will's Hospital. His success attracted the attention of senior physicians. He reports the following remarkable cure of White Swelling of the hip, in February 1844. The patient was seven years of age, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I continued three weeks. He had been under several physicians, who had given him up. I ordered a decoction of Rock Rose. In two days his night sweats ceased; I then ordered a trispent of Rock Rose three times a day. Thirty-nine days after he was entirely well.
Dr. Webb of Madison, Ct.
Testifies to the value of Rock Rose, as evidenced in the cure of numerous cases of the Scrofula, especially in children.
Dr. S. Fuller, of Hartford, Ct.
Administered the Rock Rose to a Scrofula female, in which the salt scrofula remedy had been applied without success. The disease was fully arrested by it.
Dr. A. Tyler, of New Haven Ct.
Relates the following case. Mr. C, from a child, was afflicted with the Scrofula, and had also Glandular Swellings on the neck. At the age of 16 he was much afflicted, and had right abscesses on the neck, three ulcers on the shoulder, and three on the hips. He consulted Dr. Munson and Spalding of New Haven, but all to no purpose. In 1816, when forty years of age, Mr. Smith, a farmer from Long Island, observing Mr. C at the head end on one side, and unable to sleep, advised him to try the Rock Rose regularly, which he did for four weeks. The ulcers broke, discharged and healed, and his head resumed its natural position, and he went regularly to work.
The value of the Rock Rose has also been set forth by Dr. Tyler, of New Haven, Ct., in a dissertation avowedly prepared for that purpose, which afterwards, at the request of several of his medical brethren, was published in a pamphlet.
We quote from the preface. He says that since the delivery of this address, "the plant under consideration has been more fully tested, its virtues developed, its character better established. This dissertation is published by the advice and approbation of several medical friends, and is the object of it is to, before the profession, and the public, the virtues of a plant too much neglected."
The Rock Rose is a plant of rare medicinal virtues, and unrivaled as a curative agent in Scrofula diseases. I do not want to express the desire, in this statement, that it may be resorted to, less to the sufferings of our deceased and dying humanity. EDWIN R. WARREN.

THE CONTRACT OF INSURANCE

OFFERS an expedient, by means of which, for prudent men escape losses. They transfer to others the risks which inevitably come upon them. For a small consideration, these risks, which might in an unlucky event, ruin individuals, are safely assumed by Companies well organized and judiciously managed. Such an institution is the

COMPANY

HARTFORD, CONN., INCORPORATED 1825.

Two Hundred Millions OF DOLLARS IN THE WESTERN COUNTRY.

Several Thousand Losses have been incurred upon the above risks, all of which have been adjusted at the General Agency Office.

At CINCINNATI and paid with the utmost promptitude according to the conditions of the Policy, as may be seen by the receipts of the several claimants on file.

This Company has its operations upon such a perfected plan of cash premiums, well scattered risks and long experience in estimating hazards, that the interests of all concerned are protected. The Company receives from almost innumerable sources and in small sums, a large annual deposit.

Its Annual Premiums and Capital Stock Exceed \$1,000,000!

From this fund, held as a public trust, losses are paid. To secure for the public and the Company a permanent ability to meet every fair demand, all erroneous or fraudulent claims are of course rejected. This is the only plan of insurance which can long deserve the public confidence, and the undersigned agent confidently invites his friends to secure themselves at his Agency, against loss by

FIRE, OR THE PERILS OF NAVIGATION.

The advantages of this contract need scarcely be urged upon wealthy men, or merchants, for they rarely neglect it, and if they do, they leave their contents, and with no capital but their laboring men, mechanics and others of moderate means—who, perhaps, have little else than a home and its contents in the world.

These should never neglect to insure: a fire that may visit them at any hour would leave them homeless, and with no capital but their labor to begin again the struggle of life, and years of toil and watching must pass before they can regain what they have lost, if indeed it is ever done. To such, insurance is a duty. If the individual is worth little, the expense is less if he owns much property, still, the expense is trifling, and by investing a few dollars he is safe. If he is overtaken by misfortune and his all laid in ashes, he receives a recompense in cash equal to his loss, which he can use as he pleases, and may soon restore what he has lost.

POLICIES issued at all times, upon favorable terms by C. ISHAM, Agent, for Jackson and Jackson county.

COMPETITION IS THE LIFE OF BUSINESS.

As a certain dealer of the town of Jackson, Ohio, has advertised, that he sells goods at Portsmouth prices, and then goes on to enumerate what those prices are, I wish to inform the public, that I buy my goods in Portsmouth, and do not buy them at auction either. Neither do I pretend to sell them at cost, or 1/2, or 3/4 of profit. But will sell them as low as those who do. For instance, I will sell Axes at 31 cts. per gallon, by the barrel, thereby saving 5 cts. per gallon
